In the Matter of)
Southwestern Bell Telephone Company's) CC Docket Nos. 85-229,
Comparably Efficient Interconnection) 90-623 and 95-20
Plan for Internet Access Service)

REPLY COMMENTS OF SOUTHWESTERN BELL TELEPHONE COMPANY

Southwestern Bell Telephone Company (SWBT) hereby responds to August 25, 1995 Comments filed by the Commercial Internet exchange Association (CIX) on SWBT's August 3, 1995 Comparably Efficient Interconnection (CEI) Plan for Internet Access Service. CIX finds SWBT's Plan "generally acceptable," but asks that SWBT state whether it intends to provide name service translation between an Internet address and a domain name, and/or network news services.

SWBT at this time plans to provide Primary Domain Name Service but not network news service. SWBT expects Interexchange Internet Service Providers to provide Secondary Domain Name Service.

There being no opposition to any of SWBT's August 3, 1995 CEI Plans (Internet Access Service, PC Backup and Recovery Service, and Facsimile Service) each should be approved as promptly as possible.

Respectfully submitted,

SOUTHWESTERN BELL TELEPHONE COMPANY
